\* Print Media: Please indicate what type of print, media on which you printed the image and how the print was made. We are NOT looking for the type of printer you use or the name brand of inks if inkjet prints. Typical media statements are: selenium toned silver gelatin print on archival rag paper, archival inkjet print using pigment ink on watercolor paper, scanned image printed on inkjet paper or traditional color print, etc. It is very important to note if you used archival printing and framing.

**Images should be emailed directly to *CameraArts Magazine* to [tim@cameraarts.com](mailto:tim@cameraarts.com) by September 28, 2007. Size your images to 300ppi, 8 x 10 image size, RGB or Grayscale, tif files are preferred. Please include your last name and title of the image in the file name. For specific questions, contact Tim at 505-881-2717.**
